

PonyXPRS

PX-646

PonyXprs™ Printing System

Get on your horse and deliver the goods. This system gives you the printing speed and dependable drying results necessary to produce the profits earned by professionals. The Xprs system is a mobile multicolor printing/drying unit perfect for small spaces. This clever space saving design features a durable multicolor printer and a compact professional conveyor dryer.

The PonyPrinter features micro-registration, rotary platens and a 7 year warranted registration system. The AirPonyDryer offers reliable cal-rod style heaters that easily adjust in height and fan cooled temperature and belt speed controls often found in larger conveyor ovens.

If you need serious production in a small space or an on-site printer, the PonyXprs is the answer. Full size machines produce up to 100 pieces per hour with the ability to print 6 color work. Smaller machines can be expanded from 4 color up to 6. PonyXprs machines can also expand from 1 station to 4.
