TRX SERIES

www.trx-touch-screen-conveyor-dryer.com

Features include

- Touch screen controls for all variables.
- Stores operating parameters for 36 jobs.
- Eco mode puts the machine in a low power usage setting for operator down time.
- 12 programmable machine maintenance items with reminders.
- Industrial stack light with alarm notification.
- Machine lifetime power cost analysis.
- Audio alarms.
- Programmable auto shutdown.
- Multi-lingual functionality.
- Touch screen file management.
- Individual job analysis of time, temperature, and power use.
- Individual analysis of cost per garment.
- Password protection.
- Onboard diagnostics system.
- Control panel temperature sensors with alarm notifications.
- Simple to install software updates.
- HeadsUp display for temperature monitoring.

Main Screen

Features include

- Heater indicator lights.
- Variable speed exhaust air flow.
- Variable speed convection air flow.
- Temperature control with ± 7 accuracy.
- Adjustable heater rack height.
- Crowned rollers for perfect belt tracking
- Teflon coated fiberglass belt.
- Triple Wall insulated construction.
- 10" internal exhaust section.
- Variable speed cooling chamber on the exit end.
- Independent oven baffle adjustments.

Rear cooling chamber

TRXi

software

Features include

- 10.1" display touchscreen.
- Internet ready.
- Access from any android smart phone, iPhone, Android tablet, iPad or PC.
- TRXi machines include all the features of the TRX series.

Keep an "i" on your shop from wherever you are..

The HeadsUp Display with the integrated stack light provides real-time information from anywhere in the shop.

This digital display can show one of many different variables including:

- running temperature of the air in the chamber
- current belt speed
- many more

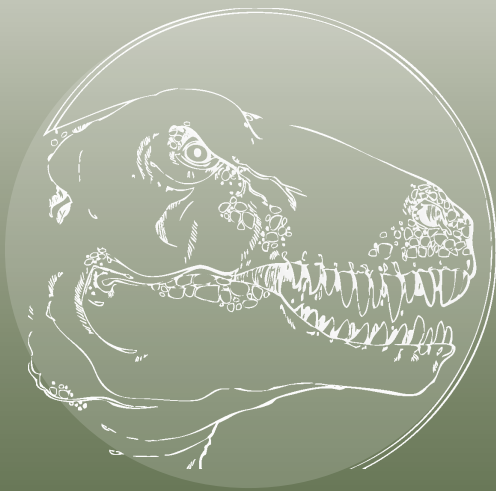

The StackLight indicates if the dryer is within operating temperature range.

The TRXi software will allow connection to any LCD display. This display can be used to monitor many different machine functions or the machine control panel

HeadsUp Display
